

Veinlite LEDX[®]

Our brightest portable vein finder designed specifically for sclerotherapy

Veinlite LEDX[®] is our portable transilluminator optimized for sclerotherapy applications. It features a wider opening and a larger viewing area to deliver deeper focus, while providing the highest contrast imaging to simplify superficial varicose vein treatment.

- Clinically proven Veinlite[®] technology*
- Meets INS and CDC Guidelines for infection control
- Increased area of illumination
- Optimized for viewing superficial varicose veins
- FDA and CE registered

“LEDX is working perfectly and I love it! It is my favorite tool for sclerotherapy and I would miss it very much! I don't know, how phlebo/sclerotherapists can work without it!”

– Dr. Damisch
