PURPOSE

In an emergency when someone's life is in danger, every second counts. We design our equipment to take all unnecessary stress and timewasting out of a situation.

We do this in consultation with the person actually using the products whenever designing new products or improving current designs.

CAPABILITIE

We have two industry leading brands under our umbrella: NEANN® and firelogistics®.

NEANN® is our division providing lifesaving medical equipment to state and territory ambulance, hospital, fire and rescue and defence departments across the country. We also offer custom designed products to suit client needs, requirements, and situations.

firelogistics® is RAPP Australia's fire and emergency equipment division, supplying firefighting and rescue gear to many of Australia's fire and rescue services.

CUSTOMERS

Because of the usability, reliability, and safety of our products, we have been entrusted to supply valuable lifesaving equipment to all of Australia's ambulance and other emergency responders.
